

*SPACE...*

The ultimate hallucination.

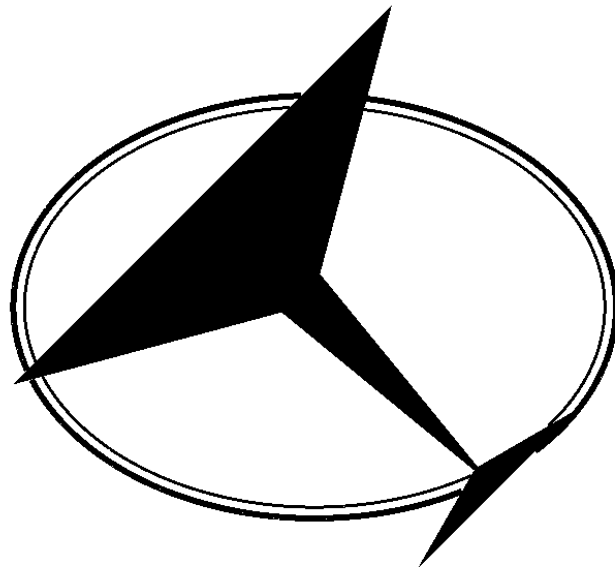

These are the voyages of the Barship *Casual*.

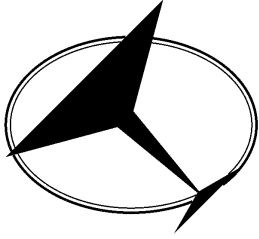

Her ongoing mission:

To exploit strange, loose women.

To seek out nude life and embarrassing situations.

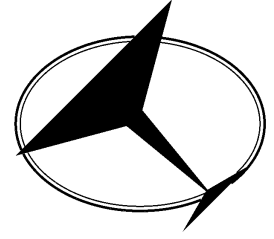

To boldly sin sins no one has sinned before!

# U.B.S. CASUAL

## NCC-REVOKED

Greetings, Sentients!

How time flies.

It seems like only yesterday that the *Casual* was alone in the void, a sole Barship with a small and dangerously underworked crew seeking to spread our message of slack to a pretty small region of space. Then...shit happened, and we went from alone to First among Many. But no matter how many ships join our wonderful Fleet, *Casual* proudly bears her title of Barfleet Flagship proudly, and her many crew members over the years have shown all who have come after How It's Done.

And so it is with some surprise that we realize that more than a few years have passed since this whole thing started, more than a couple of decades in fact since the *Casual* first slipped out from under the heel of Federation dominance and made a name for herself as the finest party vessel ever to cruise the Federation. The time has come to celebrate a pretty big milestone for our beloved Flagship, and we would be happy if you'd join us for it:

### The UBS Casual's 25<sup>th</sup> Birthday Party

We're throwing this party in an old and familiar spot: The Jamestown Condominium Party Center in North Olmsted. We're going to invite a lot of folks, including former crew and friends that we haven't seen in far too long. There will be some old, some new, and some different games, drinks, and fun.

The *Casual* doesn't need gifts, but we are looking to make this a pot luck. If you can bring something food related to contribute, that's great. Please see the Barfleet Facebook group for any ongoing discussion of who's bringing what. And as always, contributions to the Dispensary stocks are much appreciated.

Unlike most *Casual* party venues, this facility has no crash space available. But Commodore Erickson's place is pretty close, Captain Von Matic's is only 15 minutes away, and there are several hotels almost within staggering distance.

Because we're expecting a lot of old friends, let's try to look our best. Pull out your finest bathrobe, your swankiest toga, your most opulent smoking jacket, your most breathtaking corset...we'll have 25 years of *Casual* history here, so let's look great while we revel in our amazingly unlikely quarter-century of survival.

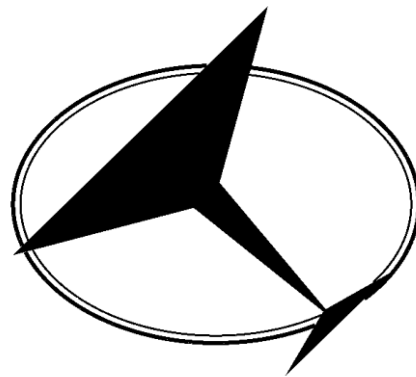

As always, if you're a recipient of this invite, feel free to bring along anyone you think will have fun and fit in. Get 'em into the proper uniform and bring 'em along...just make sure they're of legal drinking age and don't turn into a flaming

asshole after one drink. This really shouldn't be a big recruiting event, but so long as they're the right kind of people, they're welcome to join us for the festivities and hand us money.

I don't think any of us who started this crazy thing on the Ides of March in 1986 had any clue where it would go, or how many fine folks would join us for the journey...but I do know it's been one hell of a ride. Come join us to reminisce about our first 25 years, and to look forward to the next.

See you there!

Commodore Allan Cormach Erickson, commanding officer  
Captain Fulton Otto Von Matic, executive officer
